Dated 26th April 1900
No 2938

Enclosure one

Sir,

In Government Proceedings No 3869-9 Mis 736 Genl dated 23rd September 1897, sanctioning the Revision of the edic -al Establishment of the State, in para 5, it is stated The Government are pleased to sanction the following consolidated salaries for them, viz - For Mr Sreenivasa Rao, Chemical Examiner and Bacteriologist (also for all duties) Rs 200 rising to Rs 250 after 3 years' approved service from the date of his first appointment (12th Decr 1896) and to Rs 300 after a further approved service of 3 years Their prospect of further promotion whether as Specialists or in the General Medical service need not now be defined" I have now the honor to forward for the consideration of the Government a letter from Dr M Sreenivasa Rao, M D , in which he asks that the Government will mark their appreciation of his services in some suitable manner According to the Proceedings of Government Mr Sreenivasa Rao became entitled to an increase of Rs 50 per mensem in December last, but this he has not drawn as he is anxious that his appeal for increase of pay should first be placed before Government In submitting his letter, I would venture to suggest that taking every thing into consideration, viz -

That he at his own cost went to England, and

and took the Degrees of M B , C M , & B Sc at the University of Edinburgh,

2nd. That when his services were applied for by the Plague Commission to assist in the carrying out of Scientific experiments in connection with Plague, the Durbar when asked to state what pay he should be given, appraised his services at the rate of Rs 700 per mensem Such being the case it appears to me that the scale of pay which has been sanctioned for this Officer is not in keeping with the value put upon his services by the Durbar when lending them to the Government of India

When Dr Sreenivasa Rao applied to me for an appointment, I recognised the value of the qualifications which he had obtained at so much personal expense, and I think, I may safely add, personal social sacrifice · was only too glad to secure his services for my Department. Had I recommended him to the Geological or Educational Department as one of the Professors in those branches he would have done far better for himself. As the services he renders are more of a Scientific than of a Medical nature, I would suggest that the Chemical and Bacteriological branch be treated as a distinct Scientific Department and that his pay be regulated according to a Special scale rising to a maximum pay by annual increments I find that in the Geological and Educational Departments, the scales of pay are as follows -

GEOLOGICAL	EDUCATIONAL
	(Native Professors
Ist State Geologist Rs 1500 to Rs 1800 by annual increments of Rs 50	~~1st~~ II Grade Rs 300 to Rs 500 by annual increments of Rs 25
2nd State Geologist Rs 800 to Rs. 1200 by annual increments of Rs 50	~~2nd~~ I Grade Rs 300 to Rs 450 by annual increments of Rs 25
3rd State Geologist Rs 400 to Rs. 700 by annual increments of Rs 50	

4

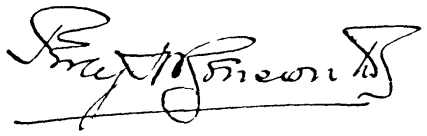
In justice to Dr Sreenivasa Rao's work which has been so highly spoken of by the Plague Commission, and taking into consideration the loss he has incurred pecuniarily, not to add socially, by his having gone to England to take his Degrees, I would strongly recommend that he be placed on the same footing as Ist Class Native Professors in the Educational Department, on a salary of Rs 300 permensem from 12th December 1899, rising to Ps 600 by annual increments of Rs 25 per annum.

Dr Sreenivasa Rao is at present drawing an allowance of Rs 200 permensem for lecturing on Biology an Palaeontology in the Central College, and in the event of my proposal being approved of, I trustthat he will be permitted to continue to draw this allowance so long as he lectures in the College I may add that this allowance is not a fixed one, and is liable to be stopped if permanent lecturer is appointed to lecture on these subjects Moreover this allowance does not count for pension and cannot be drawn in the event of his taking privilege leave

I have the honor to be,

Sir,

Your most obedient servant,



Lieut -Col ,I M S ,

Senior Surgeon and Sanitary Commissioner,

Mysore Government.

From

The Chemical Examiner and Bacteriologist
to the Government of Mysore,
Bangalore

To The Senior Surgeon & Sanitary Commr
with the Government of Mysore
Bangalore

Sir,

I have the honour to request that you will kindly forward, with your strong support, the application of mine to Government, for raising my pay and status as a Specialist in the Medical Department

2 I beg to express my gratitude to you and the Mysore Government for the Establishment of a splendid Laboratory in Bangalore, for the creation

creation of a new appointment and for the Entertainment of my Services which has given me an opportunity of doing good work, and would respectfully submit for your kind consideration whether the pay originally attached to the post of Chemical Examiner and Bacteriologist should not now be raised so as to make it Commensurate with the dignity and responsibilities of such a position It is as you are aware, admitted on all hands, that the work turned out in the Laboratory has been such as to add to its reputation and enhance the credit of the Mysore State. In recognition of my original work the University of Edinburgh has conferred on me the Degree of

Doctor of Medicine and Professor
J R Fraser M D, L C D, F R C P, & F R S
President of the Indian Plague Commission
has favoured me with a testimonial
a Copy of which is attached

3 The status of Chemical Examiners
in the British Territory is Superior
to that of the District Medical Officer
there corresponding to the Civil Surgeon
here The Government of India, in their
Resolution dated 21st December 1897,
were pleased to remark that Chemical
Examiners being Specialists, deserve
Special Encouragement as such, and
as an inducement to such class
of officers, ruled that they should
be treated differently from the
ordinary Medical Staff and get
[redacted]ective

irrespective of their Military rank,
a special scale of pay rising from
Rs 800 to Rs 1400 by annual incre-
-ments of Rs 50 each The Chemical
Examiner of Madras gets, in addition
to his pay, a house rent allowance
of Rs 100, and an allowance of Rs 200
a month for lecturing on Chemistry for
one hour daily in the Madras Medical
College In view of such Exceptional
Services and risks as Plague duties
involve, the Government of India
have fixed a pay of Rs 800 for the Medical
men recently sent out from England
for Plague work in India, and in my
own case also, when the Indian Plague
Commission made a requisition for
my Services, the Government of Mysore

were pleased to recommend a monthly
pay of Rs 700 which was approved by
the Government of India The work
in the Laboratory here is far more risky
and arduous than what it was when
I was on duty with the Indian Plague
Commission I shall not however
make any suggestions about my
future pay, but shall leave it to your
good nature and the generosity of
the Mysore Government to mark their
appreciation of my merits in the
most suitable manner I only
hope that an Indian, who, in spite
of many difficulties and at his
own expense, successfully prosecutes
his studies in a famous European
University

University and obtained high medical and Scientific Degrees, may not be considered undeserving of the patronage of an enlightened and liberal Government as that of Mysore

I have the honour to be
Sir,
Your most obedient Servant

S Srinivasa Rao MD

Chemical Exami & Bacteriologist
to the Govt of Mysore

Copy of a testimonial given by Professor T R Fraser
M.D. LL.D. F.R.C.P. & F.R.S. Dean of the Faculty of Medicine
in the University of Edinburgh and President of the Indian Plague Commission

Enclosure 1

University of Edinburgh
New Buildings
17 November 1899

I have much pleasure in stating that I have formed a high opinion of Mr Srinivasa Ranga's ability as a Scientific observer

While he studied in this University, he gained the approval of his teachers by his diligence and care in acquiring knowledge

It was with much satisfaction that I heard the clear and valuable evidence he gave before the Indian Plague Commission on several of the scientific aspects of plague which he had investigated I consider that the researches which he has since carried out on this subject have not only shown him to be an able Bacteriologist, thoroughly conversant with modern methods of work but have added to our knowledge of the conditions governing the Extension of Plague It is a gratifying circumstance that India should be able to produce men with so excellent qualifications for original work

To

The SECRETARY TO THE GOVERNMENT OF MYSORE,

GENERAL AND REVENUE DEPARTMENTS,

BANGALORE

NO 1010

DATED 28 8 00

Sir,

I have the honor to forward two letters received from Assistant Surgeon Ramasawmy Iyengar in connection with the recent promotion of Assist ant Surgeon E S Krishnasawmy Iyer which he regards as an act of supersession.

2 Personally I do not think there was any intention on the part of Col Benson to supersede Dr Ramasawmy He is really not in the graded list,(vide this Office letter No 973 dated 13th May 1897 in which he and Dr Sreenivasa Row are styled "Specialists")and so the promotion of Assistant Surgeon Krishnasawmy only in a pecuniary sense affects him Yet his grievance is very real Without apparently consulting him, he was removed from the graded list while at the same time no definite orders were passed as to how his pay should be regulated in the future And now a junior in the graded list is promoted to a grade which allows him more pay than Dr Ramasawmy his senior receives So while Assistant Surgeon Krishnasawmy's promotion may not be actual act of supersession, it has had the invidious effect of placing a junior Officer on a higher salary than his Senior- a senior who would, I feel sure, have undoubtedly first received

promotion

In G O 30-97 which the fourth 2nd comp. Please see Govt orders passed on that letter in Pro No 3868-97 dated 23/9/97, a copy of which is herewith submitted

FROM

To

Enclosure No

promotion had he been allowed to remain in the graded list

3 To remove this extremely unsatisfactory state of things and state of things which if allowed to continue will prove a grave injustice to an Officer who deserves well of Government, I earnestly request that Govern rent will be pleased to settle Dr Ramasawmy's position once for all In this Office letter No 973 dated 13th May 1897 in which he and Dr Sreenivasa Row are ~~recommend~~ removed from the graded list and called Specialists, it was recommended that their pay should be arranged as follows -

"I am of opinion that they should be entitled to precisely the same scale of pay and pro. motion as is recommended to other Officers of their grade up to the grade of 1st grade Assistant Surgeon After 3 years in that grade I would recommend that they be granted pro. motion to the next grade viz (3rd grade Civil Surgeon) and to promotion to the each higher grade after five years approved service in each grade inde. -pendent of Vacancies

A different proposal has since been made in regard to Dr Sreenivasa Row and is the subject of a separate communi- cation (vide this Office No 1009 dated 29th August 1900) But the proposal in the above letter may still be recommend -ed for adoption, so far as Dr Ramasawmi Iyengar is concerned, and I beg Government will be pleased to adopt it or some other more satisfactory solution of this question

4 I may perhaps be permitted to add my own opinion on the matter of the grading of the Medical Depart -ment in Mysore I think the present arrangement very unsatisfactory It stands in the way of the promotion to the higher grade of pay both of our Specialists and of our Lady Doctors I may here advert to the fact that Miss

Miss Govindarajlu can never get to the higher grade of pay under present arrangements, she, also has been passed over by Assistant Surgeon Krishnasawmy Iyer and while I fully recognise the latter's good qualities I cannot refrain from saying that his promotion over Miss Govirdarajlu is an act that should never have been done without at the same time making due arrangements to provide that she should not be either at pecuniary loss, or be placed in the very unpleasant position of appearing to have been passed over by a junior Officer

It is for cases then like hers and our Specialist's that the present mode of grading is utterly unsuited According to it Civil Surgeon s only can draw the highest grade of pay, but in Miss Govindarajlu's case her sex is taken as an excuse for not making her a Civil Surgeon, an , of course, of thereby debarring her from the higher grade of pay A specialist in the eye is also regarded as apparently not fit to be a Civil Surgeon and therefore not entitled to the highest grade of pay I think all this is a huge mistake "Civil Surgeon" should mean rank and pay regardless of sex and nature of work, just like the other grades, and there is no reason why Miss Govindarajlu should not be called "Civil Surgeon and yet retain her present appointment. Her appointment would have to be made an independent one, that is, directly under the Senior Surgeon, which I am of opinion should be done without delay. I feel sure ~~I feel sure~~ I have the District Surgeon of Mysore with me in this matter He has quite enough to do without meddling with the Maternity there I use the word "meddling" deliberately When an Officer can only look in casually I maintain that he is not a help but the reverse, he paralyses the Medical Officer immediately in charge by making him or (her) feel that the responsibility is not his (or hers) and thereby takes away all spirit of originality or enterprise in the execution of his work

The

The mode of address of our Civil Surgeons is also wrong They should be addressed " District Surgeons". And a District Surgeon might be either a Civil Surgeon or an Assistant Surgeon. If this view of the matter is adopted by Government all difficulties in regard to promotion pass away If an Assistant Surgeon has fulfilled his or her duty efficiently and eminently promote her or him to the next higher rank It may be said " we have only a limited number of Civil Surgeons" and if your advice be adopted, we should find probably Bangalore or Mysore in charge of Assistant Surgeons" and my reply is "Why not ?" Many of our Assistant Surgeons are just as capable men as our Civil Surgeons and quite as capable of holding these positions as the present incumbents- just as in the case of the British service, many of the District Surgeons are Captains or Majors, yet do their work frequently far better than the Lt Colonels It is indeed often the saving of a District in British India to appoint an energetic young Captain to the charge And the same might possibly be said of our Districts in Mysore

Such are my views- I lay them before Government for what they are worth, not wishing to press them as my occupation of this Office is so temporary. Yet I think they are correct, and feel sure the public service would be no loser, and the Medical Department would be more contented if they were adopted

5. I enclose also a letter from Assistant Surgeon Lakshmisawmy in regard to his supersession.

I have the honor to be,

Sir,

Your most obedient servant,

M D ,
Major, I M S ,

Sir,

With reference to our docket No 4187 Mis 909 dated 17th September 1900, asking me to submit definite proposals regarding the pay of Dr M Srinivasa Rao Government Bacteriologist, I have the honor to draw your attention to my letter on this subject No 2938 dated 26th April 1900 in which I recommended that he should be placed on the same footing as Native Professors commencing on a salary of Rs 300/- and rising to Rs 500/- by annual increments of Rs 25/-

2 Major Smyth whilst Offg for me, in his No 1009 dated 28th August 1900, advocated a higher rate of salary for Dr Srinivasa Rao, and I have now the honor to recommend, for reasons stated in my letter quoted above (2938 dated 26th April 1900) that Dr Srinivasa Rao be granted a salary of Rs 400/- from 12th December 1899 rising to Rs 700/- by annual increments of Rs 25/- I say Rs 400/- instead of Rs 300/- as I hope to submit to you very shortly a Scheme for improving the status of some of the Officers in the Medical Department, and if this is sanctioned some Officers of his standing, but without his qualifications will be drawing Rs 400/-

3 I would also recommend that Dr Srinivasa Rao be removed from the general list of Medical Officers, so that none of the

may

look upon his improved status as an act of supersession

I have the honor to be,

Sir,

Your most obedient servant,

Lt -Colonel ,I M S ,

Senior Surgeon & Sanitary Commissioner

To

The Secretar to the Govt of Mysore,

Genl & Rev Departments

Sir,

I have the honor to acknowledge receipt of Government Order No.16561-3/Mis 4126 and Government Order No 4123/Mis 4123 dated 12th June 1901 and with reference thereto I have the honor to submit for the consideration of the Government the following matters

(1) Dr M Srinivasa Rau's designation would more correctly be "Chemical Examiner and Bacteriologist to Government and Lecturer in Biology and Geology to the Central College", as he is unable to spare the additional time - six hours a week - which would be required if he were to lecture to the F A.classes in Physiology - though I should be very pleased if this were possible, as it is highly desirable that the F A Physiology should be taken by a Professor practically trained in that subject

(2) The reduction of his allowance from Rs200/- a month to Rs100/- which appears to be in the order is at variance with all the previous orders in his case, where his allowance was fixed at Rs200/- a month As Mr Sambasiva Iyer the other Lecturer in Geology has an allowance of Rs200/- per month for the same amount of teaching as Dr. M Srinivasa Rau viz., two hours a day and Dr M Srinivasa Rau's work as well as his qualifications and abilities are much superior to those of Mr Sambasiva Iyer, the allowance ought to be certainly not less in his case As the previous Government Orders were passed on representations from me I trust that my representation in this case may be favourably received by the Government and that to

prevent any invidious distinction the teaching allowance may be equalised for both Lecturers

(3) It is unfortunate that Mr Fetherell, who takes the Geology work from July to December annually in place of Mr Sambasiva Iyer is in an anomalous position in having no allowance for the same If he had also an allowance of Rs200/- per mensem the cost to Government would only be Rs100/- per month, which is very little for such high class technical teaching as the B A Geology course As I have already more than once pointed out it would be much more convenient for me as Principal if we had one Professor to take up all the Geology course instead of three as at present, but such a man of high qualifications could certainly not be had for Rs400/- a month

I trust that the Government may be disposed to view this matter in the light of my representations

I have the honor to be,

Sir,

Your most obedient servant,

Principal

The Secretary to Government

General and Revenue Departments, Bangalore

No 6137

Dated 18th June 1901

Sir,

I have the honor , with regard to G O No 16561-3/M 4126 Dated 12th June 1901 to request to be informed if the salary therein sanctioned is to commence from 12th December 1899 as recommended by Col Benson in his No 2084 of 13th November 1900

2 I would further request to be informed as to whether the enhanced salaries of Messrs Srinivasa Rao and Ramasamy Ivergar affect their status in the Medical list i e are they to be designated Assistant Surgeons or Civil Surgeons ?If not, what is their official status?

3 I notice that Mr Srinivasa Rao's allowance as lecturer in the Central College is cut down by one half and that for two hours daily lectures all the year round on Biology and Paleontology (not Physiology) he is to receive Rs 100 instead of Rs 200/- as he has hitherto done The matter concerns me little, being rather one that concerns the Principal of the Central college but when I consider the fact that in Madras the lecturer on Medical Jurisprudence gets Rs,1200/- per annum for a short course of three lectures a week, I cannot but think the lecturer on Biology and Paleontology in Bangalore Central college is to be extremely poorly remunerated for his labours two hours a day throughout the educational year on subjects of extreme abstruseness, and requiring great labour on the teachers part if he would keep a breast of the literature of his subjects and maintain the standard of his instruction at the height it should reach at the present day I speak from personal acquaintance with these subjects and I accordingly think that the re-

duction

35

reduction of Mr Srinivasa Raos salary as lecturer on ther is a step which may well be postponed for further consideratic It cannot but greatly dishearten him and unless he is sterling far above the average, it will have the effect of preventing him throwing his heart and soul into his work and work done in any other spirit is hardly worth paying any thing for at all

I have the honor to be

Sir,

Your most obedient servant
